The Chillicothe Tribune says that the Democratic judges of the county court objected to F. S. Miller, nominated by County School Commissioner Sparling as member of the institute board, for the reason that he was lawyer, and thereupon on their arer and such objection lay We suspect, however, that partisan jealousy animated the Tribune article.

C. E Demitt, who has been confined in the Livingston county jail for the past four months, charged with passing counterfeit money, was discharged from custody April 29th, the federal authorities concluding there was not sufficient evidence on which to hold him for trial. Before leaving Chillicothe he announced his intention, as soon as he returned to his home in Albany and consulted with his attorneys, to bring suit against the city and county for false imprisonment. Demilt is the same man who sold his wife for \$15-four or five months ago.

The wife of Prof. Hart, who lives near Judge Rogers' on the Springhill road from Chillicothe, narrowly escaped death through the careless marksmanship of the judge a few days ago. She had just stepped from a large mirror, in frontsof which she was arranging her toilet, when a bullet pierced the wall of the house, shattered the mirror and buried itself in the wall behind. Going out of the house to investigate the matter, she met the judge who told her he had just fired at a worthless cur and he supposed the bullet came from his gun. When told the course it had taken he became more frightened than the lady and was most profuse in hi apologies.

Chillicotheans are so susceptible to the attractions of the circus that the confidence man who represents himself as in any manner connected with the "saw dust" arena finds among them much convenient material upon which to work his "grafts." A well-dressed, smooth-talking individual, representing himself as the advance agent for the world renowned Ringling Bros.' circus arrived at the Leeper house a few days ago. Charles James, a 19-year-old Norborne youth, was killed by the eastbound Wabash "cannon ball" Sunday morning of last week at the ballast pit within 300 yards of the family homestead. The evidence at the coroner's inquest developed the fact that a crowd of young men had been drinking beer in the vicinity during the night. Young James had been up at a dance all Saturday night. For some little time Miss Watrons had no desire to eat and complained of a feeling of extreme lassitude. This was followed by severe pains in the head. For three weeks the young lady was nearly crazed with a terrible headache and nothing could be procured to give her relief. Finally, after trying numerous remedies, a physician was called and began treating the patient. He said the trouble was caused by impoverished blood, but after several weeks of his treatment the young lady's condition had not improved and the parents decided to procure the services of another physician. In the meantime Miss Watrous' nervousness had increased, the pains in her head had grown more severe and the sufferer's parents had almost given
